While Jehn is inside at the table refreshing himself after the excitement he orders his servants to go out and bury the dead queen. oughly degrade a man as a wife of unworth While in my text we have illu tration of wifely ambition employed in the wrong direction, society and history are full of instances of wifely ambition gloriously triumphant in right directions. All that was worth admiration in the character of Henry VI was a reflection of the heroics of his wife Margaret. William, Prince of Orange, was restored to the right path by the grand qualities of his wife Mary. Justinian, the Roman emperor, confesses that his wise laws were the suggestion of his wife Theodora Andrew Jackson, the warrior and presiden had his mightest re-enforcement in his plain wife, whose inartistic attire was the ment of the elegant circles in which she wa invited. Washington, who broke the chain that held America in foreign vassalage, wore for forty years a chain around his own neck that chain holding the miniature likeness of her who had been his greatest inspiration whether among the snows at Valley Forge or amid the honors of the presidential chair Plmy's pen was driven through all its poetic and historical dominions by his wife Calpurnia, who sang his stauzas to the sound of nia, who sang his stanzas to the sound of flute and sat among audiences enraptured at her husband's genius, herself the most enraptured. Pericles said he got all his eloquence and statesmanship from his wife. When the wife of Grotius rescued him from long imprisonment at Lovestein by means of a bookcase that went in and out, carrying his backs to and for he one day trasported. his books to and fro, he one day trasporte besieged Weinsberg, getting permission from the victorious army to take with them so much of their valuables as they could carry, under cover of the promise shouldered and took with them as the most important valu ables their husbands-both achievements in a literal way illustrated what thousands of times has been done in a figurative way, that

all the blessings which God has given to me,
the greatest of all in my eyes is to have
lighted on Maria Motley." Martin Luther
says of his wife: "I would not exchange my poverty with her for all the riches of Crossis without her." Isabella of Spain, by her su-perior faith in Columbus, put into the hand-of Ferdinand, her husband, America. John Adams, president of the United States, said of his wife: "She nover, by word or look discouraged me from running all hazards for the salvation of my country's liberties." Thomas Carlyle spent the last twenty years of his life in trying by his pen to atone for the fact that during his wife's life he never appreciated her influin such language as only a dyspeptic genius could manage, until one day, while in her invalidism riding in Hyde Park, her pet dog got run over and under the excitement the ary giant woke from his conjugal injustic and wrote the lamentations of Craige tock and Cheyne Row. The elegant and ful some epitaphs that husbands put upon their wives' tombstones are often an attempt to make up for lack of appreciative words that should have been uttered in the ears of th living. A whole Greenwood of monumental inscriptions will not do a wife so much good after she has quit the world, as one plain sen-tence like that which Tom Hood wrote to his living wife when he said: "I never was any thing till I knew you."

The contest for social position is the most unsatisfactory contest in all the world, because it is so uncertain about your getting it, and so insecure a possession after you have obned it, and so unsatisfactory even if you tained it, and so unsatisfactory even it you keep it. The whisk of a lady's fan may blow it out. The growl of one bear or the bellow-ing of one bull on Wall street may scatter it. Is the wife's ambition the political prefer ment of her husband? Then that will prob ably direct him. What a God forsake realm is American politics those best kno who have dabbled in them. She stamped her husband's name on a preciamation which resulted in getting Naboth tried for treason against the king, and two perjured witnesses swore their souls away with the life of Naboth, and he was stoned to death, and his
